*) Ved beregning af udsigtslængde jf. SR bilag 3, antages en vandhastighed 200 km/h

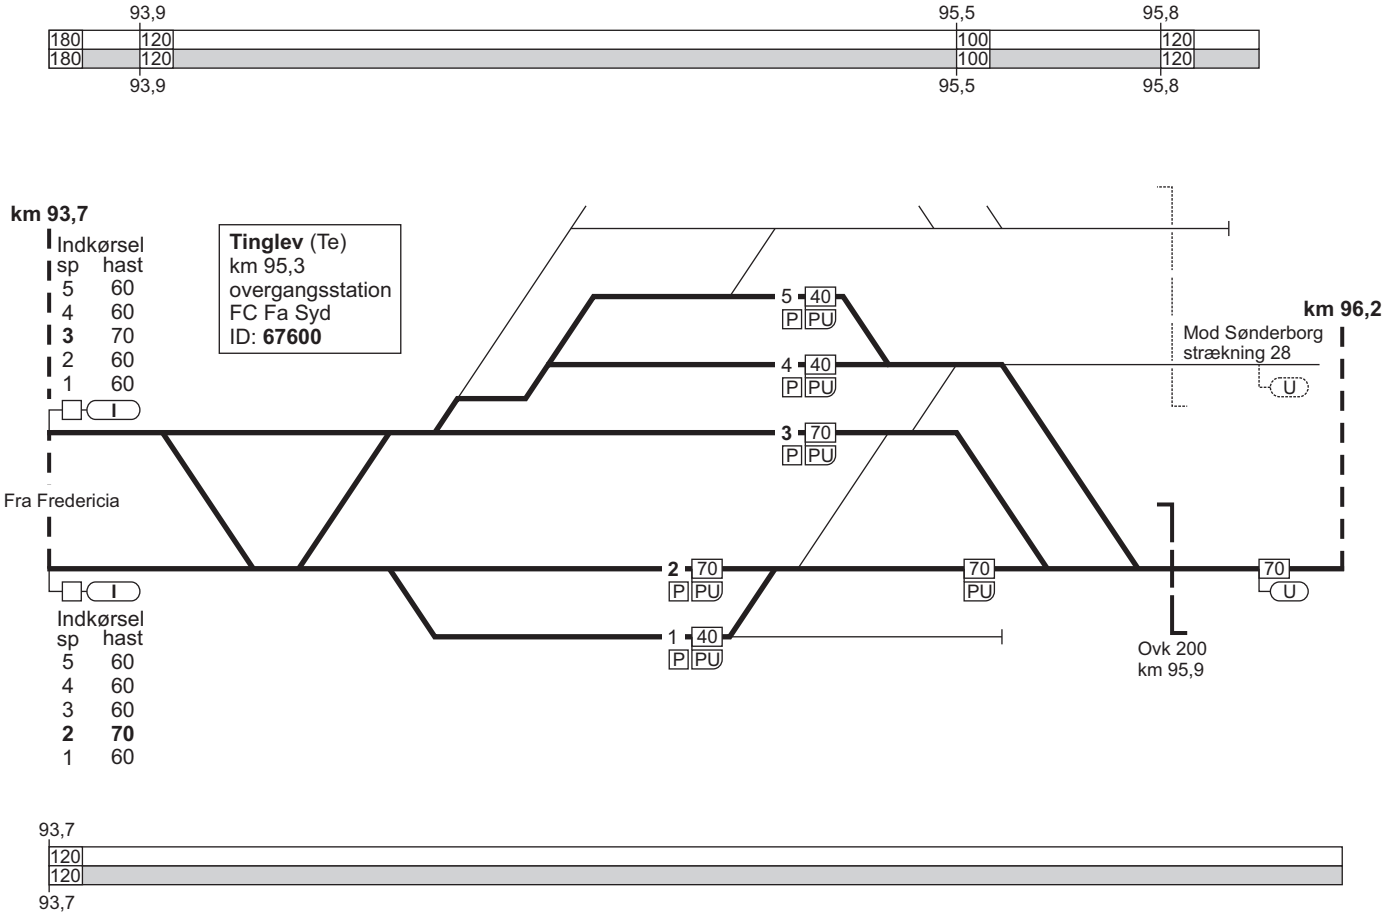

*)

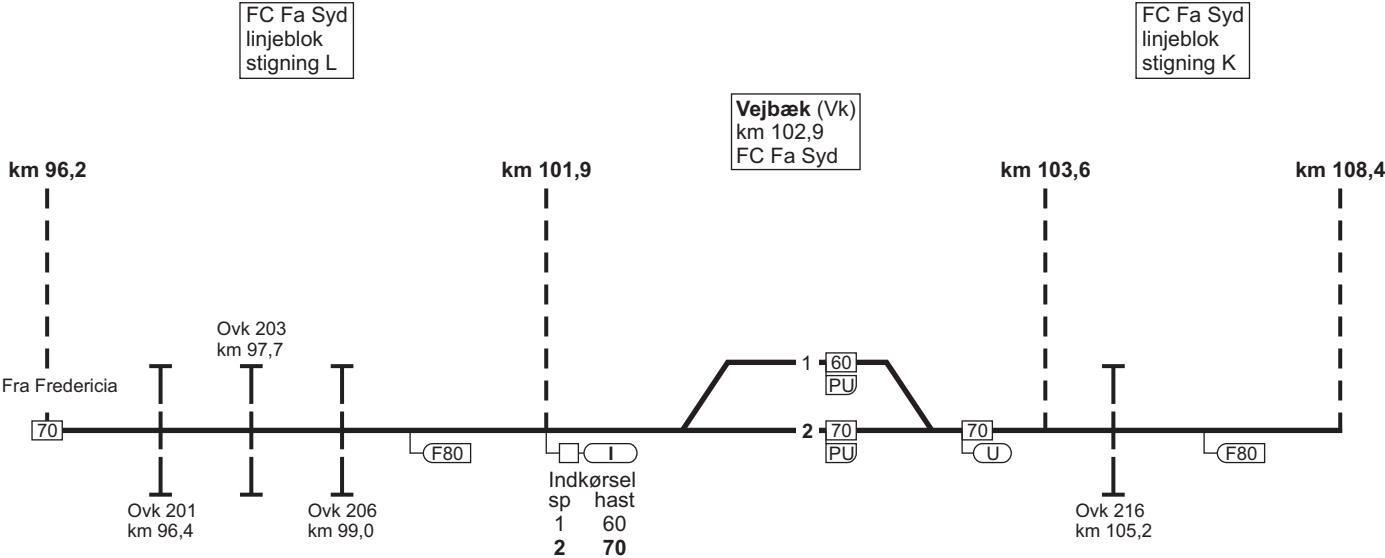

Diagram of a horizontal beam with a uniformly distributed load $q = 150 \text{ N/m}$. The beam is supported by a pin support at the left end and a roller support at the right end. The total length of the beam is 180 cm. The distance from the left support to the first point load is 60.2 cm. The distance between the two point loads is 72.4 cm. The distance from the second point load to the right support is 73.8 cm. The point loads are labeled 150 N and 180 N.
